BUMMP

## Preparing the Games

**Print and Laminate** - Print each game board on cardstock or on paper and laminate.

**Print on Cardstock** – This is an economical way to produce the Bump Games. The game boards can then be put into a sheet protector to make them more durable.

These Bump games require dice and counters to play. Each player will require counters in a different color.

## Using the Games

**Math Centers** - The games are ideal for math center activities.

**Whole Class Games** - Enlarge a game on a copier and it can be used as a whole class game. The class can sit in a circle on the floor around the board and play in teams or the game board can be attached to a pin board or whiteboard.

**Display on Smartboard** – The games can also be used as whole class games by projecting a game onto a Smartboard. This is an ideal way to teach the class how to play the games.

**Homework** - These games are ideal for homework. They are a fun alternative to regular homework and parents can be involved in playing the games with their children. This is really popular with the kids and the parents.

**Fast Finisher** – The games are perfect activities for those children who finish their work early. They can be kept in a box of games or on a shelf where the children can access them when they finish their work.

**Peer Tutoring** - These Board Games are a great activity for students to use to help each other. Pair a weaker student with a stronger student so students can 'tutor' others.

**Buddy Class Activity** – These games are ideal as a buddy class activity. Have the younger students 'teach' their older buddies how to play the game.

# Take From Bump

Subtraction – Roll 2 and Subtract from 13

$$13 - \_ = \_$$

a game for 2 players

**Need:** 2 dice and 8 counters per player – each player uses a different color

**To Play:** Players take turns to roll the 2 dice, add the numbers together and then subtract the total from 13. Then they cover this number with one of their counters, covering the large number. If another player has covered that number, they can 'bump' that counter off and put one of their own counters on it. If that number is covered by one of the player's own counters, they can add another counter on top and then they have won that space. You can only 'bump' when there is only one counter on the number. The winner of the game is the first player to use all 8 of their counters.

# Robot Bump

Subtraction – Roll 2 and Cover an Equation

$$18-6$$
$$18-6$$

$$18-7$$
$$18-7$$

$$15-8$$
$$15-8$$

$$13-5$$
$$13-5$$

$$10-8$$
$$10-8$$

$$11-6$$
$$11-6$$

$$12-9$$
$$12-9$$

$$13-9$$
$$13-9$$

$$17-8$$
$$17-8$$

$$12-6$$
$$12-6$$

$$13-3$$
$$13-3$$

a game for 2 players

**Need:** 2 dice and 8 counters per player – each player uses a different color

**To Play:** Players take turns to roll the 2 dice, add the numbers together then find an equation that equals the total of the dice. Then they cover this equation with one of their counters, covering the large equation. If another player has covered that equation, they can 'bump' that counter off and put one of their own counters on it. If that equation is covered by one of the player's own counters, they can add another counter on top and then they have won that space. You can only 'bump' when there is only one counter on the number. The winner of the game is the first player to use all 8 of their counters.

# Thank You!

I would like to take this opportunity to thank you for downloading Subtraction Bump Games Freebie and to wish you and your students lots of fun with these games!

Please consider leaving a comment and rating for the product.  
Kind regards,  
Teresa

Subtraction Bump Games includes the following 25 Games –

- |   |   |
|---|---|
| Honey Bear Bump - Roll 2 and Subtract           | Take From 16 Bump - Roll 2 and Subtract from 16               |
| Shark Bump - Roll 2 and Add or Subtract         | Take From 17 Bump - Roll 2 and Subtract from 17               |
| Cute Cats Bump – Roll 1 and Subtract from 7     | Take From 18 Bump - Roll 2 and Subtract from 18               |
| Piggy Bump – Roll 1 and Subtract from 8         | Take From 19 Bump - Roll 2 and Subtract from 19               |
| Sheep Bump – Roll 1 and Subtract from 9         | Take From 20 Bump - Roll 2 and Subtract from 20               |
| Butterfly Bump – Roll 1 and Subtract from 10    | In the Clouds Bump - Roll 2 10 Sided Dice and Add or Subtract |
| Cow Bump – Roll 1 and Subtract from 11          | Alien Bump - Roll 1 and Cover an Equation                     |
| Caterpillar Bump – Roll 1 and Subtract from 12  | Balloon Bump - Roll 1 and Cover an Equation                   |
| Barn Bump – Roll 2 10 Sided Dice and Subtract   | Kite Bump - Roll 2 and Cover an Equation                      |
| Take From 12 Bump - Roll 2 and Subtract from 12 | Skater Bump - Roll 2 and Cover an Equation                    |
| Take From 13 Bump - Roll 2 and Subtract from 13 | Beach Bump - Roll 3, Add and Cover an Equation                |
| Take From 14 Bump - Roll 2 and Subtract from 14 | Paint Splat Bump - Roll 3 and Add or Subtract                 |
| Take From 15 Bump - Roll 2 and Subtract from 15 |   |
