Dice Race 1

2 players

YOU NEED

☐ 1 dodecahedron, numbered 1-12
☐ 3-4 race charts

RULES

***The first number whose row is completely filled wins.***

1. Predict which number will win the race. Discuss and record your predictions.
2. One person rolls the dodecahedron. The other person marks an X in that number's row on the race chart.
3. Continue rolling the dodecahedron until one row is filled with Xs.

Play the game at least three times.

SAMPLE ROLLS

First roll: 9
Second roll: 7
Third roll: 9

6						
7	X					
8						
9	X	X				
10						
11						

WORKING TOGETHER

◆ Discuss the following: *What are the chances that 1 will win the next race you play? Why? What are the chances that 10 will win? Why?*
◆ Be prepared to explain your reasoning in a class discussion.
